The application has been amended as follows:

(a) Cancel claims 8-10.

(b) Change the title as below:

Circuit Board with Air-Bridge

(c) Change the abstract as below.

~~A method for making a~~ multi-layer circuit board ~~416~~ having apertures ~~98, 98~~ which ~~may be~~ that are selectively and electrically isolated from electrically grounded member ~~46~~ and further having selectively formed air bridges and/or crossover members ~~404~~ which are structurally supported by a polymeric material 442. Each of the apertures ~~98, 98~~ selectively receives an electrically conductive material ~~444~~.

2. The following is an examiner's statement of reasons for allowance: The claimed invention discloses a circuit board structure comprising a first electrically conductive member having first dielectric member and second dielectric member connected on the

opposite side of the conductive member, a first circuit assembly coupled to the first dielectric member and a second circuit assembly coupled to the second dielectric member, wherein both the first and second circuit assembly includes at least one air bridge and said first electrically conductive member cooperating with said first and second circuit assemblies and with said first and second dielectric members form a multi layer circuit board. This structure is not disclosed by the prior art of record

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
